Hawes Answers A & M. Argument.

The fallacious argument of the pro-meters of the Alton & Mississippi promoters of the Alton & Mississippi pro-posed free bridge approach that only through their scheme could the abolition of the bridge arbitrary be assured was answered effectively by Richard S. Hawes of the Citizens' Free Bridge Com-nittee at the luncheon of the Business Men's League Conference Committee, Friday, when he cited the fact that the city already had passed an ordinan ige could charge an arbitrary on any

Fined, JACK KRATZ, CAFE OWNER, IS INDICTED IN TAX BRIBE CASE

> He Is Charged With Supplying Money Offered to Delegate Henry Klug Last Spring.

> Jack Kratz, proprietor of the Falstaff Cafe, 11 North Sixth street, was indicted by the grand jury Saturday on a charge of having attempted to bribe Delegate Henry Klug of the Tenth Ward to vote for the 10 cents tax rate increase bill to complete the wagon approach of the free bridge last spring.

> A bench warrant was issued for the arrest of Kratz and it was placed in the hands of a deputy sheriff. Kratz is a brother of Charles Kratz, former member of the City Council, famous in the boodle days when Joseph Folk was Circuit Attorney.

Shortly after the bench warrant was issued, Kratz appeared at the office of the Sheriff in the Municipal Courts Building with Chris Schawacker, bondsman, and furnished bond in the sum of \$2500.

The first indictment in the attempted bribery of Klug was returned last summer against Leonard A. Holdenreid of 3008 South Jefferson avenue. Klug testified that Holdenreid offered him \$500 to vote for the tax rate bill.

Holdenreid later confessed to the grand jury that he was acting for Kratz in attempting to bribe Klug. He said he was one of the first members of the

Mexican Intervention Would Be Folly, Says Taft.

WASHINGTON, Feb. 28. ORMER President Taft, in his address here last night before the National Geographic Society, had the following to say on

"The situation is in such a condition that it will be improper for me to comment on it, except to say this: That those who lightly look forward to intervention are either utterly regardless of the loss of life and the expenditure of im-mense treasure, or else they don't know what armed intervention on the part of this Government in Mexico will mean.

"Those of us who have nad experience in the tranquilization of a tropical country, with a people not very different from Mexicans, who take naturally to guerrilla warfare, and who would rather fight than work, that is, would rather fight and run than work, know the difficulties that an army would have to meet to accomplish the only purpose that we would have in going in, to wit, the bringing about of law and order. It would involve the garrisoning with a sufficient force of every town. It would involve the organization of columns to chase the guerrillas into their mountain fastnesses and across trackless desert plains and the subjugation of 15,000,000 of people.

"I don't know when we would get through; oh, I don't know how many lives it would involve; I don't know how much it would cost, but I do know it would be a drag upon us, and when we had gotten the thing done, the future would still be doubtful and still be a charge and a burden upon our Government and upon our treasury. Von Words in Describing Incident for Official Paper.

BERLIN, Feb. 28.—Admiral von Diederichs replied in print today to the statements made by Admiral Dewey re the American and German naval commanders in Manila Bay during the

Spanish-American War. The reply is published in the officia Marine Rundschau and is spread over 11,000 words. It contains the report o the visit made to Admiral Dewey July 10, 1898, by the then Flag Lleutenant Von Hintz, who is now German Minister to Mexico. It is evident from this report that Admiral Dewey threatene the Germans with war if they did no cease their interference with the block-ade regulations and if they refused to permit the Americans to make the in-quiries necessary to establish the identity of neutral warships. Von Diederichs says:

"Admiral Dewey gradually talke himself into a passion. He said: "Why shall stop every vessel, whatever may be her colors. And if she does not sto shall fire at her. And that means war, do you know, sir.' When the phrase, 'if Germany wants war,' etc., occurred again, I took my leave "I was under the impression that this

in itself trivial, incident put a match to a mass of explosives which long had been accumulating in Admiral Dewey's mind from suspicion, rumor and newspaper 'reperts."

SENTIMENT IN REBER APPROACH

That Plan Twice Has Received Majority-Stuart's Constituents Against A. & M.

The Twenty-seventh ward's representa-tive in the House of Delegates is Charles F. Stuart, a liveryman at 5523 Easto

Stuart is a Democrat and is one of the 17 Democratic members of the House combine of 22 which is obstructing the completion of the free bridge by refus-ing to submit to a vote of the people a bond issue to build the Reber approach. In two of the three bridge bond elec tions to build the Reber approach the Twenty-seventh Ward has given a majority for the bonds. In 1911, the vote for the bonds was 1299 and against them 1298. At the special election in August.
1912, the vote for the bonds was 2011 and against them only 1677. In November 1912, there were 3006 votes for the bonds and 3251 against them.

Our Forty-First Birthday!

I Two score and one years ago this business was founded at the southeast corner of Broadway and Franklin, in the little one-story, one-room building we are showing herewith.

Then St. Louis' population was but a little over 400,000.

Then the city extended west only to Grand avenue. Then the retail districts were on Fourth street and on

Franklin avenue, the wholesale district was at Broadway and there was no definite financial center. Then the street cars were all horse cars and mainly all

were the one-horse cars. Then only a few east and west streets were paved, and

those with the obsolete square paving stones.

Unchanged, throughout all these years of growth, are the principles of reliability and efficient service laid down by the founder of this business. We have built on them—we ascribe our patronage to our rigid adherence to themthis celebration is designed to express our appreciation for the confidence reposed in us. The method we take is this:

Ideal heat makes home a haven

After the day is ended and the paper cast aside, here comes that period of calm reflection: "Would my day's struggle be worth while without the after bodily rest and genial mental cheer possible only in a wellwarmed home?" . . "Could I do my best work under the handicap of old fashioned heating?" * * * "Would not all the people be better contented, healthier, abler bread-winners under the genial influence of radiator heating? If they only knew!"

No matter how fiercely bleak winter rages at the doors or howls at the windows, the faster will be the natural flow of warmth to the AMERICAN Radiators to offset the cold. That's the beauty

of our way of heating. You need have no fear for the comfort, health protection and safety of the folks at home where this heating outfit is on guard. IDEAL Boilers and AMERICAN Radiators add to the joy of living

because they banish the work and wear by keeping coal-dirt, ashes and soot out of the living rooms, and they reduce the cost of living in their great savings in fuel, lessened doctor bills and absence of repairs.

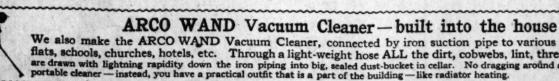

IDEAL Boilers and AMERICAN Radiators are made from high grade material throughout and should easily outwear the buildings in which they are used. Every part and feature of their construction has been tested and its worth and efficiency definitely established in our big Testing Laboratories, here and abroad — the only exclusive heating laboratories in the world.

The practical values and every-day economies and conveniences of these heating outfits have been demonstrated in thousands and thousands of notable buildings, homes, stores, schools, churches, hospitals, theaters, etc., etc., in nearly every civilized country, and endorsed by leading health officials, engineers and architects. That is why IDEAL Boilers and AMERIleading health officials, engineers and architects. That is why IDEAL Boilers and AMERICAN Radiators are so fully guaranteed. Yet they cost no more than ordinary types made without scientific tests of construction and capacity. Accept no substitute.

If you want to make your home a haven of comfort, don't wait until you build but comfort your present home farm or in city—with an outift of IDEAL Boiler and AMERICAN Radiators. Put in now without turbing old heaters until ready to start fire in new outift.

DRIVING CEIPPLES FROM THE STREETS.

Along with the heartless demand to drive all the jebless men from the city, comes the announcement that the Board of Commissioners of Charftable and Penal Institutions has a plan to rid the city streets of all beggars and especially of cripples. Mr. Cramer, the president of the board had, it is said, "personal experience" with one beggar who was unfit to be allowed on the streets alone because of his crippled condition. Cramer said when he suggested to the man that he should enter the city infirmary, "the man strongly objected."

This cripple strongly objected to what? Not to having his liberty taken from him. His freedom as a man was more to him than three meals a day. a roof and a bed every night and a lot of rules and restrictions that would reduce him to virtual slavery.

The modern desire to get all beggars and up sightly persons behind walls, out of view of the rest of humanity, is based on that false pity which ern Kansas at an equal distance from Kansas City Nietzsche so sternly and justly condemns. LIQUOR CURSE IN ALASKA.

From the Pittsburg Dispatch.

Archdeacon Hudson Stuck, in a recent article published in the New cent article published in the New York Post, discloses the fact that the liquor trade among the Indian tribes of Alaska has constituted a national disgrace. It has long been established as a primary rule in dealing with the Indian tribes that no liquor is to be Indian tribes that no liquor is to be

Indian tribes that no liquor is to be sold to them. But for some reason this rule is not enforced in Alaska: and an attempt by the missionary element to secure conviction of the violators of the law has failed.

The injury to the Indians by the sale of drink and the prevalence of disease brought to them by unscrupulous whites have amounted in some cases practically to depopulation. It may be a question whether or not the white races can drink moderately. But it is well known that the aboriginal races cannot. Despite the law based on that fact, the Government officers, particularly in the more distant regions, make practically little pretense of enforcing the law against the law-breakers.

Despite the law against the law-breakers. the law-breakers.

When it comes to recording a woman's secret, the Angel Gabriel is a nere amateur beside the camera.

Some photographers can make a woman of 60 look like 30, and others make a woman of 30 look "like 60." Woman fancy they know all about clothes, but the miracles that a ver photographer can perform with a yard of tulle and a cotton rose

rould make a fashionable modiste green with envy. You can sometime take "the measure of a man" in half an hour, but the true measure of a woman is known only to her Maker, her mediate and her photographer-and they (Thank Heaven) won't tell.

Oh, yes, probably one reason why a woman always looks so unnatural when she is posing for a picture is that she HAB to keep her mouth shut.

A man's vices are merely his virtues carried to extremes; a miser is an economist gone too far; a prodigal is a philanthropist run to seed, and a rounder is a "good fellow" overdoing the role

If husbands would expend as much energy and use as many devices to keep their wives smiling as the photographer does, married life would be one long honeymoon.

FARM to TABLE Producer to Consumer

OOST OF LIVING!"

That is the SLOGAN which is sweeping through the land. How to DO IT is the PROBLEM. All eyes are on the FARMER and the Producer—they are the ones to to DO IT is the PROBLEM. All eyes are on the FARMER and the Producer—they are the ones to SOLVE the TABLE end of it. How? By shipping DIRECT to the CONSUMER. All the FARMER and the PRODUCER and the CONSUMER have to do is GET TO-OETHER. This can be accomplished within twenty-four hours through this "FARM to TABLE"—producer to consumer—column in the Post-Dispatch. The FARMER or PRODUCER ADVERTISES that which he HAS FOR SALE; the CONSUMER READS these ads and arranges to BUY. BOTH MAKE MONEY. And the HIGH COST OF TABLE LIVING is at an END. It all depends upon YOU. MR. FARMER and Mr. Producer!

MR. FARMER and Mr. Producer!

One million people in and around 8t. Louis have to be fed at least three times a day. They are easer for fresh, wholesome food at reasonable prices. MR. FARMER OR MR. PRODUCER. WHAT HAVE YOU TO SELL TO THESE ONE MILLION CONSUMERS? Tell them through this column. The advertisers herein are getting results, and so will you because this column is read by the million people who are seeking the good things to eat which you may have to offer.

This is the entering wedge.

THAT LOST ARTICLE MAY NOT BE FOUND TODAY Or tomorrow or next week. In fact, a month or more may elapse before it turns up. A little persistency may be necessary. Ofter the article remains unfound; often fear of prosecution or hope of more satisfactory reward may delay the restoration. Then the belated awakening of the finder's conscience explains many delays. But persistency and Post-Dispatch wants will usually recover a lost article if an honest person finds it. The service of the Post-Dispatch Lost and Found Bureau is also enlisted in behalf of advertisers.

TALKING HORSE IS SUED FOR LIBEL BY SPINSTER

Animal Selected as Most Loved Woman and Her Fiance .

Shoots Jester. BERLIN, Feb. 22.—Buttrow, in Mecialenburg, has the distinction of being the
first town where an inhabitant has been
libeled by a talking horse. Recently a
talking horse connected with a traveling circus was instructed by its trainer
to select from the audience the woman
who was most in love. The intelligent
animal sought out an elderly spinater,
who was present with her flance, whereat shouts of laughter arose from the

audience.
The laughter developed into unpleasant jesting, which continued outside the tent.
Finally, the fiance, losing his temper, drew a revolver and fired a shot, which was intended to frighten the jesters off. The bullet struck and slightly wounded a married woman who was some distance off. The victim now claims damages for assault, while the spinster sues the circus proprietor for the insult per-
